

Discontinued Product Notice

Metcal PS-CA1 and PS-HC1 Discontinued Immediately

PS-HC1 with tip

The Metcal PS-CA1 Coil assembly and PS-HC1 Hand-piece with coil assembly are discontinued, effective immediately. This hand-piece and coil assembly were used on the PS-900 soldering system, and the obsolete PS-800 soldering system. The PS-CA1 and PS-HC1 used the PHT series soldering tips.

Current users of the PS-900 system may upgrade to the PS-HC3 Hand-piece (PS-H3) and coil assembly (PS-CA3), however this hand-piece works with the SxV series of tips. PHT series tips are not compatible with the PS-HC3 hand-piece and coil assembly.

For PS-800 system users, there is no replacement hand-piece and coil assembly available.

Metcal will continue to manufacture the PHT series tips until the end of 2018.
